

GovLink December 7, 2022 Release Notes

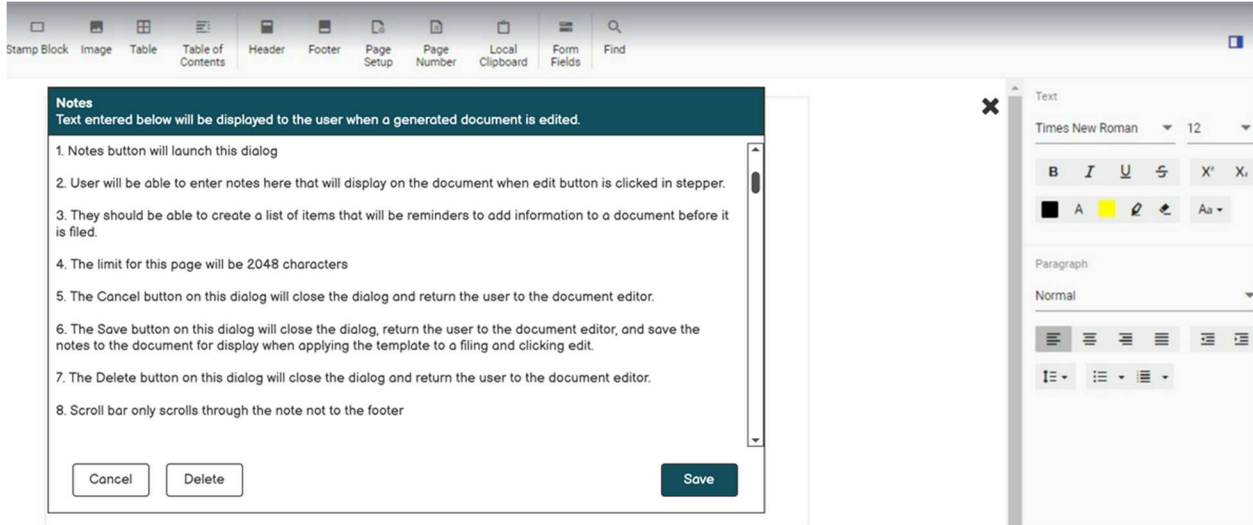

Version 2.2

Contents

Add Notes to Document Templates	2
Case Details Header Change	2
Case Details Document Descriptions	2
Help Text Added for Party Details – DOB field.....	2
Email Notifications Now List All Parties	2

Add Notes to Document Templates

When creating or editing a Document Template, users may now add Notes to the template. These Notes will be displayed to Users when they are editing a document in the Filing Stepper that was created using this template.

Case Details Header Change

The Case Details dialog header has an updated font and color to make it easier to read.

Case Details Document Descriptions

The Case Details dialog box will now display 20 characters of all document descriptions. When the Description is longer than 20 characters, the full document description is displayed as hover text when the user hovers their mouse over the description field.

Help Text Added for Party Details – DOB field

The help text of “MM/DD/YYYY” now appears in the DOB field on Party Details and is overwritten when user selects or enters a date of birth.

Email Notifications Now List All Parties

Previously, GovLink’s filing and case update email notifications only listed party types of ‘defendant’. The heading on email notifications has been changed from ‘Defendant’ to ‘Parties’ and now all parties are listed.
